Q-DAS

Release Notes Desktop Application
Version: 14/240226 - 14.0.4.4

Key		Changelog statement	Component/s
Bug	QDC-1192	Characteristic change no longer matched previous versions. -Error fixed-	O-QIS, procella
Bug	QDC-1088	A test plan can be loaded even if a repeat measurement is active. - Fixed bug -	O-QIS, procella
Bug	QDC-1083	The additional data is also automatically incremented when the measurement is repeated. - Fixed bug -	O-QIS, procella
Bug	QDC-1051	Check sequence in procella no longer matched the previous Q-DAS versions after the update. -Error fixed-	O-QIS, procella
Bug	QDC-990	The graphic "Individual values measurement process" does not show the values correctly for a VDA5 in 3rd. Edition. The header was wrong, and the first values are just repeated. -Error fixed-	solara
Bug	QDC-916	In the event of an error code during evaluation, the long text of output points (here 7448) was not output. -Error fixed-	Q-FD, solara
Bug	QDC-878	Despite mandatory input, the alarm dialogue can be closed with "X" as soon as entries are stored. -Error fixed-	O-QIS, procella
Bug	QDC-864	Various fixes for dynamic sampling in procella.	O-QIS, procella
Bug	QDC-857	The "Control Centre" in MCA/CMM Reporting was not usable if the database was on MS SQL. -Error fixed-	O-QIS
Bug	QDC-805	Incorrect text when using the "Classified Input" graphic if the "Show classes for values outside the class limits" graphic option is active. -Error fixed-	O-QIS, procella
Bug	QDC-739	"Invalid Pointer" message when filtering for the gage number in the value chart. -Error fixed-	qs-STAT
Bug	QDC-640	The options to confirm all open measurements of the current part in MCA/CMM Reporting was without function. -Error fixed-	O-QIS
Bug	QDC-575	Default Filter by characteristic properties does not apply in the graphic within the Summary/input. -Error fixed-	procella
Bug	QDC-538	Processing a complete subgroup in MCA/CMM Reporting took much longer than confirming the single measurements. -Error fixed-	O-QIS
Bug	QDC-369	K2991 was recognised as an incorrect K field during the data format check in Q-DM and in the manual upload. -Error fixed-	M-QIS Upload, QAE, qs-STAT

	Key	Changelog statement	Component/s
